Erotic voice material collection for games, video production, and creators

This is a collection of erotic voice material that allows you to concentrate on your production without worrying about post-purchase issues.

File format: Monaural and binaural sound files are stored in wav (48kHz 24bit), ogg, and mp3 formats, respectively.

The works sold by this label are original works with transparency of rights.

This package allows you to use our products with peace of mind, without worrying about rights relationships, which are becoming more complicated with the spread of AI.

## ☑About Use

No credit is required; use for commercial purposes is OK

Can be used for adult content

Reverb, effects, and other processing to suit the scene is OK.

Prohibited items

Redistribution or sale of materials

Re-editing the voice and replacing it with other words, or using it in such a way as to change the original intent of the dialogue

Use that is deemed to lack consideration for the voice actors, even in cases other than the above

This package is royalty-free material. The copyright of the material is not waived.

-----

If you have any other questions regarding the use of the materials, please feel free to contact us.
